LARGE NUMBER OF LEADERS OF LABOR ARRESTED TODAY

OFFICIALS OF IRON WORKERS
NOW HELD ON INDICTMENTS

MEN TAKEN INTO CUSTODY
THIS MORNING IN MANY OF
THE LARGER CITIES OF THE
UNITED STATES.

INDIANAPOLIS, Feb. 14.—International President Frank Ryan of the Bridge and Structural Iron Workers, and Herbert Hockin, secretary and treasurer of the same organization, as well as 30 others, were arrested today as a result of the government's investigation into the alleged union labor plot.

This is about half the number of men indicted which is said to be about 60. Arrests have been made in 15 different cities, and the charge has generally been complicity or knowledge of the illegal transportation of dynamite and other explosives.

The full list of indictments was made public at noon today and a total of 53 are named for arrest in the indictments. Several of them were arrested previous to today.

The bonds for Ryan and Hockin were fixed at \$10,000 each and the others at \$5,000 each. Five of the arrested men gave bail.

CHICAGO, Feb. 14.—Richard H. Houlahan, financial secretary of the structural iron workers, and five others were placed under arrest here this morning. Among the others arrested are James Conroy, James Coughlin and William Schoupe.

Richard Houlahan, financial secretary of the local union and its business agent during the time that J. J. McNamara was in office, is regarded among unionists here as one of the leaders of the organization in Chicago. He has always been a strong "administration" man, being a warm friend of President Frank M. Ryan and a supporter of J. J. McNamara up to the time of his arrest.

Houlahan is quiet in manner, domestic, even tempered and soft spoken. The local union is divided since the confession of McNamara, and Houlahan openly heads the Ryan faction. He has only a slight acquaintance with J. B. McNamara.

WASHINGTON, Feb. 14.—The department of justice today stated that no officers of the American Federation of Labor will be indicted. Some, however, may be subpoenaed as witnesses.

ADD DYNAMITE ARRESTS.—SYRACUSE, N. Y., Feb. 14.—E. E. Phillips, former local secretary of the International Bridge and Structural Iron Workers union, was arrested here this morning, charged with complicity in the dynamite conspiracy. John Carroll, who took charge of Phillips' books, was also arrested.

ST. LOUIS, Feb. 14.—Patrick Moran and John Barry, walking delegates of the structural iron workers, were arrested here this morning.

KANSAS CITY, Feb. 14.—M. E. Brown, secretary and business agent of the iron workers, was arrested here this morning.

SPRINGFIELD, Ill., Feb. 14.—Murray Pincelli and M. J. Cavanaugh, local labor leaders, were arrested here today, charged with being accessories in the blowing up of the Illinois Traction company's viaduct to the Capital coal mine last March.

CINCINNATI, Feb. 14.—Edward Clark, former business agent of the iron workers here, and Ernest Basy, former business agent at Indianapolis, were arrested here today.

RICHARDS IS READY TO DIE
TO BE HANGED NEXT FRIDAY

CONDEMNED NEGRO IS SPENDING
LAST DAYS IN HAPPY
FRAME OF MIND IN VOLUSIA
COUNTY JAIL.

Henry Richards, the negro convicted of the murder of Deputy Sheriff Edwards several years ago, and who will be hanged by Sheriff E. L. Smith at DeLand some time between 10 o'clock and 11 o'clock next Friday forenoon, is spending his last few days in peace and quiet, apparently approaching his death with little concern.

From his actions Richards is thinking no more of the march to the gallows which he will take in less than two days than he is thinking of what his next meal will consist. Richards eats well, sleeps well and is apparently the happiest man in Volusia county today.

The convicted negro was always of a religious turn of mind and is apparently entirely reconciled to his impending death. He is visited every day in his cell by a negro preacher and the two hold long conferences in the cell.

Efforts of Richards' attorney to have the governor commute the death sentence to life imprisonment have failed and practically everything is ready for the hanging day after tomorrow. The execution will be witnessed by the deputy sheriffs and a few witnesses.

This call is issued in accordance with the call issued by the state democratic executive committee. Other matters will be taken up and discussed by the members of the county committee while in session.

AT THEATER THIS EVENING

CARNIVAL AND CELEBRATION
HAS BEEN WELL ATTENDED
AND MUCH ENJOYED DURING
PAST TWO DAYS.

With the interior of the New Daytona theater prettily decorated and brightly illuminated, with plenty of entertainment for the large number of persons who were present the Elks' carnival yesterday afternoon and last night was the big attraction in the city.

The carnival was also the big attraction for large numbers of persons this afternoon and tonight will see the windup of the celebration and the climax of the three days of entertainment, the giving away of the automobile, the Elks Baby, the Kodak, the acre of land, Panama hat and various other articles of value which have been donated to the local lodge.

It is expected the crowd at the carnival this evening will be one of the largest gatherings of people ever seen in Daytona because of the intense interest which has been aroused in the climax of the celebration.

The carnival has proven entirely satisfactory to the members of the local lodge, all arrangements have been well carried out by the committees in charge and the celebration has furnished a source of amusement and entertainment for the winter visitors and local residents.

QUIET MUNICIPAL ELECTION
LITTLE INTEREST IS SHOWN

TOTAL OF 332 QUALIFIED VOTERS WHEN POLLS OPENED FOR BUSINESS AT 8 O'CLOCK THIS MORNING.

Accompanied by little excitement the city election has been going on today with a fair number of voters casting their ballots for the various men they wish to see elected to control the affairs of the municipality during the coming year.

The polls opened at 8 o'clock this morning and will remain open until sundown this evening. When the polls opened there were 611 registered voters in the city, with 332 of these qualified to cast their ballots.

J. M. Carson, Geo. F. Smith and J. L. Lynch are serving as inspectors of the election, with F. D. Spring acting as clerk.

This afternoon it was impossible to give anything like a safe guess as to who will be returned as winners after the count of the ballots this evening.

POLITICIANS ARE WATCHING NORTH DAKOTA

TEST OF NEW PRIMARY LAW
OUTCOME TO BE OF INTEREST

DELEGATES TO THE NATIONAL CONVENTIONS GET THEIR FINAL INSTRUCTIONS BY VOTE OF THE PEOPLE.

WASHINGTON, Feb. 14.—Politicians of both parties are watching with much interest the workings and the result of the presidential preference primary law which prevails in the five states of North Dakota, Oregon, Nebraska, Wisconsin and New Jersey.

The scheme whereby delegates to the national conventions of all political parties, are voted for direct by the people, who are thus permitted to instruct their delegates for whom they will cast their ballots for president, is to have its initial tryout in North Dakota. Interest, therefore, is just now centered upon the operation of the law in that state. Although the primary preference plan is a part of the Oregon scheme, and had its origin in that state, North Dakota, which followed the lead taken by Oregon in this respect, will have an opportunity to test this method of naming the delegates first, by reason of the fact that the primaries there will be held on March 17.

It is generally conceded on all sides that the delegates elected will be instructed to vote for the nomination of former President Roosevelt in the Chicago convention. It is practically certain, now, that his name will go upon the ballot to be voted for along with the names of President Taft and Senator Albert B. Cummins of Iowa.

The republicans estimate that their voting strength in the state will be about 75,000 and it is figured that Roosevelt will poll at least 35,000, and perhaps more, and Taft will have something like 20,000, and LaFollette in the neighborhood of 15,000.

The Taft managers are even ready to concede that the president cannot command a majority of the North Dakota republican voters in the preference primaries. Senator McCumber of that state, who is a strong supporter of the president, concedes an anti-Taft delegation, even at this time. One reason assigned is that the farmers of North Dakota, as they comprise the larger part of the population of the state, became deeply incensed at the president because of his advocacy of Canadian reciprocity, and although that proposition failed through the refusal of Canada to enter the compact, the agriculturalists along the northern border have not forgotten the effort made by President Taft to lower the duties upon the products of the Dominion, which they contended would compete with their own.

Conceding that the North Dakota delegates elected by the people, instead of being chosen by the old convention plan, are instructed for Roosevelt, a singular situation is likely to arise. The law makes delegates thus elected to national conventions, officers of the state and requires them to take an oath the same as other state officials. Their expenses, up to \$200 incurred in attending a national convention, are paid by the state and there is, at least, a moral obligation upon them to comply with the instructions given them at the time of their election.

Thus they will be obliged to vote for Roosevelt no matter what the circumstances may be at the convention, and even if they are the only ones who do vote for him, they could not under their instructions, (Continued on page four)

A CURIOUS ACCIDENT.

It Caused the Wreck, Long Shrouded in Mystery, of a Schooner.

The queer accidents that have happened to Maine vessels would fill a volume, and some of them would not be believed. An old coaster captain recalled the mysterious wreck of the little schooner Active in Fox island thoroughfares some years ago. It was in the fall of the year, and the Active was going through the narrow passage between the islands. She carried only two men, the master, Captain Ray, and his sixteen-year-old son. When last seen under sail the Active was shipshape, the boy at the wheel and his father below taking a nap, as it was afterward found. Next day the Active was found on the rocks, with her stern stove in, the master drowned in his bunk and the boy dead at the wheel with a bullet hole in his head.

This discovery caused a great sensation, and there appeared to be no motives for any one to kill the boy, and as it was known that the shot must have been fired by a third person, the whole affair was a mystery and remained thus for years, when a man in a distant state confessed on his deathbed that it was he who fired the shot that killed the helmsman of the Active.

The man said that he had fired at a hawk, which was circling low, and did not see the schooner, which suddenly came into range, owing to an intervening clump of bushes. Then he was horrified to see the boy at the schooner's wheel throw up his hands and fall to the deck, while the vessel branched to and was driven ashore by the wind and tide. The gunner, who was after gulls and ducks, fled without waiting to investigate the result of his unfortunate shot, fearing that if he reported the matter to the authorities he might, although innocent of any criminal intent, be imprisoned.—Washington Post.

A Cautious Parent.
She—Robert, just look at little Elsa (aged three weeks). The darling grows more beautiful every day. She will make a good match some time or other. He—For goodness' sake, don't talk about such things before the child!—London Tit-Bits.

Diplomatic.
"Tommy, if you'll saw some wood I'll tell you what I'll do."
"What's that, dad?"
"I'll let you have the sawdust to play circus with."—Washington Herald.

Making It Pleasant.
Little Albert (to visitor)—Mr. Blank, is your voice cracked?
Mr. Blank—Not that I know of. Why do you ask?
Little Albert—Papa says you're always breaking your word, so I thought that might be the reason.—Exchange.

SECOND BASEBALL GAME
WILL BE PLAYED FRIDAY.
The second baseball game in the series to be played by the local team will be played here Friday afternoon at Harrison park on Cedar street.

This time the fast Ormond team will be the attraction and the local boys are very hopeful of adding another scalp to their list of victories towards the championship of the county and the middle section of the East Coast. The local team will again have the services of Ritchie, Sheppard, and Archer of the Chicago National league and Hinchman of Toledo in the American Association, and as the Ormond team likewise has the services of several professional ball tossers, lovers of the great national game may expect to see a good contest, and at the same time see a number of big leaguers in action.

In a recent two-games series with the Rollins college team, which the locals defeated last week, the Ormond and Rollins team each won a game, and each game was of the shutout variety. The game will be called Friday promptly at 3 o'clock, and the admission, including grandstand, will remain the same, 50 cents. Tickets will be placed on sale in advance of the game at Pele Rodgers' place on South Beach street.

MENDING A FAUCET

An Easy Job That Mr. Gimp Tackled With Confidence.

IT GAVE HIM A BIG SURPRISE.

When He Got Through, or so Near Through as He Was Permitted to Get, He Was Rather Subdued—The Plumber's Comment Was Quite Brief.

Mr. Gimp came home from the city the other day and burst into his house with an air that meant business. He smiled when the maid told him his wife was out, laid a parcel on the stairs, took off his coat, rolled up his sleeves, took his parcel and went up to the bathroom, where he opened the package. It contained a monkey wrench, a screw driver, half a dozen assorted rubber washers and a pipe wrench.

"Thank goodness, my wife's not home!" said Mr. Gimp. "If there is anything upsets a man it is the foolish questions a woman asks when he is trying to do a job. Plumber! She'd get a plumber to mend a leaky faucet, would she? I'll show her that a man of intelligence can do a job in five minutes that a plumber would take all day to do and charge \$5. Now!"

Mr. Gimp turned the faucet. Not a drop of water came out. He turned the other. It was dry. They were the bathtub faucets, and the far one had been leaking for a week, while Mr. Gimp promised day by day to attend to it.

"Well," said Mr. Gimp as he saw that no water came out of the faucets, "that's more sense than I thought that woman possessed. Turned off the water, did she? Didn't let it run all day when there was no need of it, hey? Now!"

Mr. Gimp took the monkey wrench in one hand and the pipe wrench in the other and climbed into the bathtub. Then he sat on the edge while he studied the faucet.

"Lemme see!" he said. "You take off that handle, and you unscrew that top diaphragm. That's what you do." So he did that. Twice the monkey wrench slipped and he skinned three knuckles, but he got the handle off, and he unscrewed the cap and pulled out the rod that held the washer. Then he peered down into the remaining portion of the faucet and looked at the washer.

The washer seemed in good condition. He peered into the faucet and ran his finger around in it, accumulating iron rust on it. If the washer was not broken what could be the matter with the thing? There must be something the matter deeper down. He set his pipe wrench around the pipe and grasped the faucet with the monkey wrench. The faucet held like grim death. The more it resisted the more he pushed and pulled and grunted and said strong words.

When the faucet gave at last it gave suddenly, and Mr. Gimp fell over the side of the bathtub and landed with a bump that shook the house. He was up again in a minute and in the bathtub. The faucet was badly mangled where the wrench had dug into its soft brass, and the nose of it was twisted awry, but the faucet was off. He took the faucet to the window and studied it. Except for the damage he had done it, there seemed nothing the matter with it.

"Some fool plumber," said Mr. Gimp angrily, "has put the wrong sort of washer into this faucet. That's what's the matter, and that's all."

He picked out a different sort of washer and put it on the plunger. It was not a good fit, but it was a change anyway.

"Now," said Mr. Gimp, and he climbed back into the bathtub. He humped himself down on his knees and looked into the water pipe on which he had to screw the faucet. "Now," he said.

As if that had been the signal, a strong, vigorous stream of water shot out of the pipe and struck Mr. Gimp in the eye. He gasped for breath and tumbled backward. But the stream pursued him. He got up and grappled with the stream.

Unless you have tried to grapple with a stream like that you cannot even faintly imagine the difficulty of giving it a good, self-satisfying grapple. A stream like that will not fight fair. If you put your hand over the pipe the stream will squirt out in forty-two directions. Some of them hit the ceiling. Most of them hit Mr. Gimp. He wrestled silently until the bathroom was well soaked and he was well soaked, and then he decided it was better just to let the stream spurt. It spurted into the bathtub anyway. So he got out of the tub and dripped on the floor and paved water out of his hair and wiped water out of his eyes.

And just then the plumber came upstairs again. He had been down earlier to turn on the water after he had fixed the faucet, and it was quite natural that he should come up again to see if the faucet was well fixed. So he came up, and he looked into the bathroom, and he saw the faucet lying in the bathtub among wrenches and water, and he saw the water spurting heartily.

And all he said was, "Well, I'll be darned!" Just like that—"Well, I'll be darned!" That was all he said.—Ellis Parker Butler in Judge.

Didn't Want Too Much. Amateur Nimrod—Can you show me any bear tracks? Native—I kin show you a bear. Amateur Nimrod—Thanks awfully, old chap. Tracks will suffice.—New Orleans Picayune.

Sewing Machines in Japan. The Japanese government has three modern factories equipped with sewing machines to produce uniforms and other clothing, etc., required in the various branches of its service. Tailors are large users of the sewing machine and shoemakers are finding it a profitable assistant.

Combine Against the Genius. When a true genius appears in the world, you may know him by this sign, that the dunces are all in confederacy against him.—Swift.

FAR AS HE COULD GO.

She—My brother is in Manila.
He—That's a long way off.
She—Yes; he could hardly get any further away without coming nearer.

OBJECTIONS TO CONDIMENT.

The taste for condiments is unnatural and all condiments are injurious irritants. The fact that food does not taste right without salt, pepper, mustard, vinegar or other flavoring only indicates that an unnatural taste has been established which demands satisfaction like the taste for alcohol, tobacco or coffee. If one has been in the habit of using such seasonings they may be gradually eliminated. The objection commonly urged by physicians to condiments is that they are injurious in themselves, but there is a more important objection that has been overlooked. It is now well established that digestion is perfect only when the secretions are adapted to the character of the food and this is possible only when the individual taste of the food is distinguished, so that when the condiment is tasted instead of the food the normal digestion is interfered with, to a degree. The use of condiments also makes it possible to disguise foods, especially animal foods that may be seriously spoiled.

Virtue of Skunk Oil. Wonderful virtues are ascribed to skunk oil by those in the mountains. Trappers use it to conceal all odor of man from fox or lynx or other animal way of traps. In case of croup, or any bronchial or lung trouble, it rubs in quickly. With physicians at times many miles away, a bottle of skunk oil is always present in a mountaineer's family.

Magnificent Outdoor Theater. Denmark has probably the finest natural outdoor theater in the world. It is situated in the royal deer park, about six miles out of the capital. There the avenues of mighty trees serve as wings and background to a stage fronted by a beech-enclosed slope that forms a perfect auditorium. Eight thousand people can be accommodated at every performance.

Thought It a Purchase. Some good luck had come to him in business that day and he felt as if he wanted to share it with others. So when he reached her house and dismissed the station back with its two sorry horses he joyously handed the driver two dollars. The driver looked at the money, then at the man, and then at his horses, and finally said: "All right, sir, which horse do you want?"

Scripture Comforted Her. As to Scripture quotations, writes a correspondent, many years ago there was living at Brixton Hill an old woman, whom I knew well, and in conversation with a friend on the benefits to be derived from a knowledge of the Bible she made this remark: "I have often been comforted with that blessed Scripture, 'Faint heart never won fair lady.'"

Warned in Time. A soft answer sometimes disarms. A story is told of a landlord on the North shore. A guest, seldom satisfied, came to him and said: "Mr. Smith, that was not the landlord's name." Mr. Smith, your coffee is rotten. The landlord shook him by the hand. "Thank you, sir; thank you, I haven't had my breakfast yet, and I'll skip the coffee this time. Much obliged."—Boston Herald.

Missing. Little Anna's mother was expecting a distinguished guest who was extremely bald and sensitive on the subject, so she cautioned Anna not to mention Mr. M.'s hair. As the visitor was ushered in the child's gaze wandered inquiringly to the shining head. "Mamma," she piped shrilly, "where be's his hair?"

For the Invalid. When additional bed covering may be required by an invalid during the night tie a long piece of cord to the edge of a blanket laid at the foot of the bed and attach the other end to the head of the bed. All that is necessary for the invalid to do is to pull lightly on the cord, when up will come the cover.

Professor's Bad Break. "Professor Binker is getting more absentminded every day." "What's his latest break?" "Why, his oldest daughter is just out of cooking school, you know, and he's been showing his class a cruller she made. He told them it was proof of the fact that the men of the stone age played the game of ring toss."

THE LION AND THE MOUSE

STORY WILL NEVER DIE.

The remarkable following enjoyed by Charles Klein's "The Lion and the Mouse" throughout the country seems to be more interesting than ever before, if reports received from points visited this season are to be credited. There can be little doubt as to the local interest as a large number of inquiries have already been made at the New Daytona theater regarding the seats for the United Play company's production of this far famed drama next Saturday matinee and night. Mr. Klein struck the chord of popular spirit with the same sympathetic dexterity shown by the composer of a certain waltz which recently enjoyed almost as wide an acquaintance as the theme of this drama on finance. Music spreads with more speed, and its welcome is worn out by constant practice, but such a story of revelation as told by Mr. Klein in "The Lion and the Mouse" will live on and be remembered throughout the business world for a long time to come. It is too true to life to escape a long practical existence. The United Play company is said to have employed unusual skill in filing the organization to be seen here and this insures highly artistic performance. Seats are on sale at Hankins'.

WANTED—Lot or acre of land or pine land, if cheap for cash. Address by mail only, give full particulars, location, price. "Williams," No. 238 North Ridgewood Ave.

HELD POVERTY PARTY IN CELEBRATION OF BIRTHDAY.

The fourteenth anniversary of the birth of Miss Evelyn Haynes was celebrated with a poverty party Monday evening at her home on Bay street. The number of invitations had been made to correspond with the number of years of the young lady and 14 of her young friends and companions gathered at the house, all arrayed in excellent poverty costumes.

The house had been stripped of furniture for the occasion and the young people gathered in the bare rooms except for table and boxes upon which to seat themselves. All entered into the spirit of the affair and a thoroughly good time was the result.

The birthday supper, which included a huge birthday cake, was served on paper plates and tin spoons were used and other things in keeping. It being also Lincoln's birthday, the candles upon the cake were of red, white and blue, in honor of that anniversary.

The prizes for the most poverty stricken costumes were secured by Miss Grace Otis and Morris Niver and Miss Otis also won the prize in the penny contest, while the prize in the heart contest was carried off by Miss Josephine Mailey. It was a delightful social evening for the young people participating.

At a regular meeting of Live Oak chapter, No. 1, Order of the Eastern Star, held Tuesday night at Masonic hall, there were more visiting members of the order present than members of the local chapter. Two candidates were elected to membership and it was decided to give a series of card parties and other social entertainments, commencing next Tuesday evening.

JUST GOSSIP BY THE GOSSEPER.

Daytona will be full of interest and excitement tonight, and the doings before the hour of midnight comes will furnish the people of this city plenty to talk about for some time to come. Of course the greatest interest to the residents of the city centers in the municipal election, and what results will be brought by the count of votes after the closing of the polls this evening. All candidates cannot be elected and the final results will bring joy to some and disappointment to others. Then there is the climax of the big Elks' carnival celebration at the New Daytona theater tonight. The giving away of the automobile and numerous other things of value has been reserved for the last part of the last evening of the carnival, and everybody in this city and vicinity, as well as many outside, are waiting anxiously for the announcement of the lucky ones. Besides the election and the carnival, there are numerous Valentine parties and celebrations, and altogether this will be a gala night for Daytona.

If it takes ten years for the officials of the Southern Express company to act on a petition to establish a down town office in Daytona, how long will we be in getting the down town office?

Has the effect of the order of the superintendent of motive power of the Florida East Coast railroad to all engineers to exercise more care in blowing the whistles of engines within the city limits of Daytona, been to give us more whistling or less whistling?

Eng? Would it be possible for the engineers of the Florida East Coast railroad to do any more whistling within the Daytona city limits than they have been doing every night for the past month?

If These Towns

with the best of fire-fighting equipment can burn why not Daytona?

NEW YORK, Jan. 10—The fire in the Equitable Life Assurance company's building, which started yesterday morning and gutted the big granite and marble structure, is still burning today and the city firemen are working hard to subdue the flames.

Between \$1,000,000,000 and \$1,500,000,000 worth of securities are locked in the vaults of the big building and the vaults in the ruins are being strongly guarded by a cordon of police.

It is now known that seven lives have been lost in the fire and others may be in the ruins.

The Equitable officers declared today that none of the policyholders will lose a cent because of the disaster. By hard work the firemen have been able to keep the blaze from spreading to other structures in the vicinity.

Big Plant Destroyed—

EAST ST. LOUIS, Ill., Jan. 10—Three acres of buildings comprising the plant of the Commercial Acid company two miles south of this city were destroyed by fire this morning. The cause of the blaze was an explosion and the loss will amount to \$200,000.

Boston Tenement Burns—

BOSTON, Jan. 10—The four-story tenement building at No. 10 Wilbur street burned this morning. Two women and one man, all Italians, were burned to death and many were rescued from death by the forming of a human chain to a nearby building.

Many Buildings Burned—

BERKLEY SPRINGS, W. Va., Jan. 10—Two business blocks, five residences and a church were destroyed by fire here this morning. The blaze originated in a bakery and the total loss will reach \$150,000.

Bad Fire in Chicago—

CHICAGO, Jan. 10—The warehouse of the Creamery Package Manufacturing company on West Kinzie street was destroyed by fire this morning with a loss of \$100,000. In the Northland hotel, next door, 400 guests were thrown into a panic and all were driven out into the streets in the zero weather when the roof of the hotel caught fire.

BIRTHDAY ANNIVERSARIES.**
A pleasant surprise party was
held at the home of Mrs. Emma
Edick on Volusia avenue Monday
evening, in celebration of the annu-

which fell upon that day, and also
that of her neighbor, Mrs. S. H.
Moseley, which was the preceding
day.

Mrs. Edick's daughter, Mrs. Rena
Belsaro, who was in the secret, per-
suaded Mrs. Edick and Mrs. Moseley
to accompany herself and others to
a moving picture show, early in the
evening. During their absence some
20 or more friends gathered at
the house and awaited their return.
When they reached home, Mrs.
Edick opened the door and turned
on the light, revealing to her as-
tonishment a houseful of her
friends and neighbors assembled to
greet herself and Mrs. Moseley. Each
one was provided with a birthday
card, the sentiment of which was
read aloud. A birthday cake had
been provided by Mrs. Belsaro and
this and other refreshments added
to the enjoyment of the evening,
which was devoted to music, read-
ings and social conversation.

Interesting Relic of Old Days.
The remains of the old Roman boat
found embedded in Thargos mud dur-
ing the sinking of the foundations of
the London county hall, at West-
minster bridge, were transferred to
the London museum. A coin which
was found in the boat points to its
date being probably about 293-296
A. D. Researches have led to the
opinion that the old boat is probably
a relic of the first fleet formed to
protect the shores of Britain.

"eagle" rhyme with "vigli," "helress"
with "terrace," "nature" with "sa-
tire," and "woman" with "gloom-
ing." It is a pity that Mrs.
Browning is dead. She might, if
she could return, make a wonder-
ful success as a writer of lyrics for
musical comedies. Undoubtedly she
possessed the chief qualification.

THE WEATHER FOR FLORIDA
Rain tonight with colder in
north and central portions. Thurs-
day cloudy and colder, except warm-
er in northwest portion. Shifting
winds brisk and high in north por-
tion.

Fog Hard to Pierce.
A dense or thick fog will obscure
objects at a distance of 1,000 feet.
The recent accident to an ocean
steamer of the Anchor line illustrates
the fact. An iceberg was run into as
soon as seen. After the collision the
passengers could hear the echo from
their voices reflected by the walls of
ice, though the iceberg was invisible
to them. Otherwise, there are no
echoes at sea.

Economy in Cooking.
Much gas may be saved with a little
care. I bought a number of pans of
various sizes, but all with tightly fit-
ting covers. Whenever I bake bread
or a roast or for any other reason
have a hot oven, I plan to cook other
things also, as many as the oven will
hold. Stewed fruits and all vegetables
will cook as well in an oven as on
top of the stove if started boiling in plenty
of water and then put in the oven in
the covered vessels. Potatoes, how-
ever, are spoiled by this process.—Ex-
change.

Unreasonableness Permissible.
Human beings were never meant to
be entirely reasonable people; senti-
ment and persuasiveness were intend-
ed to play a part in human life.

which are not qualified in any way,
vote to make the nomination of any
other than the man they are in-
structed for, unanimous, even if
the convention should vote to do so.
There is no provision in the pri-
mary election plan for any second
choice or for voting for any one
other than as directed in the pri-
maries.

It is true, however, that there is
no penal section in the law under
which a delegate could be punished
for voting for some one other than
the person for whom he was in-
structed, and even if they were, the
offense would be committed in Min-
neapolis, and outside the jurisdiction of
North Dakota. So, nothing but
moral obligation rests upon the de-
legates, and how far they will observe
that in the face of a convention over-
whelmingly for some other candi-
dates, is a matter for speculation
and their own decision.

Not a Landseer.
"Is that a Landseer, Mr. Croesus?"
asked a visitor, pausing before a paint-
ing of a cow, executed with great skill
and fidelity. "No," replied the host.
"Reckon it's a Durham. See how
broad it is between the horns, and see
the color and curl on its forehead.
That's a genuine Durham, sure. That
ain't no 'Landseer'—Youth's Com-
panion.

Shock Brought Back Speech.
Sarah Alice Stevenson of Padham,
Lancashire, England, recovered her
speech recently in a remarkable man-
ner. While engaged in household du-
ties her clothing caught fire and in
her terror the young woman screamed
aloud. The flames were immediately
extinguished, and, to her joy, Miss
Stevenson found that she had re-
covered her power of speech, which
she had lost six years ago.

Porcelain Not of Persia.
True porcelain was never produced
in Persia, but hard paste porcelain in
Persian forms and styles of deco-
ration was made in China for the Per-
sian market. Wine ewers with pow-
der blue glaze and gold overglaze de-
coration, small vases, and bowls with
bronze luster glaze and designs re-
served in white are found in collec-
tions of Persian ware, but these are
unquestionably of Chinese origin.

No Wedding Presents.
Those who are opposed to the giv-
ing of wedding presents will hail with
approval the step taken by a very
wealthy Chicago society girl. When
her wedding invitations were issued
they contained this sentence: "It is
a special request that no gifts shall
be sent." Probably there are others
who will follow her example.

Lightning's Freak.
A strange freak of lightning is re-
ported from France. During a recent
thunderstorm the lightning struck
three byres in a village in the depart-
ment of the Loire, killing off the cows
in each byre that were lying down—
16 in all—while all those standing up
escaped unhurt.

Looks and Confidence.
We owe it to our friends as well as
ourselves to look our best at all times
and the girl who can improve her ap-
pearance without harming herself,
should do so. Nothing gives us quite
the self-confidence as to feel we look
well.
